

-40°C Blast Freezer BFR 2300 series

-40°C Blast Freezer BFR 2300 Series :-

-40°C Blast Freezer BFR 2300 series is single-temperature type freezers with intelligent digital temperature control panel and Embraco/ Tecumseh compressors. The temperature range of these freezers is +30°C to -40°C. The main purpose of blast freezers is to rapidly bring down the temperature of foodstuffs or fresh produce, freezing them very quickly.

Features :-

- ◆ R404A is the refrigerant which is free from CFC and foam
- ◆ Provided with core temperature probe which will pick out easily from food
- ◆ Single self-closing door is fitted with a full-height handle and removable magnetic gasket for more convenience
- ◆ Auto defrost system
- ◆ The interior and exterior material is made up of SUS 304 stainless steel
- ◆ Fan cooling system
- ◆ GN 1/1 pans – 60*40cm bakery pans are provided
- ◆ The height of the equipment can be adjusted to meet the various height requirements
- ◆ Temperature in the cabinet drops from normal temperature +40 °C in just 30 min

Applications:-

Used for cooling food quickly and for prevention of surface freezing and also preserve the nutritional values of food items. Mostly used in frozen food industries like iced cream, pre-prepared meals and vegetables or fish.

-40°C Blast Freezer BFR 2300 series

Specification:-

Model No.	BFR 2300	BFR 2301
Net Capacity	100L	250L
No. of Shelves	5	10
Temperature Range	+30 °C to - 40 °C	+30 °C to - 40 °C
Dimensions	800×800×1000 mm	800×800×1800 mm
Power	880W	1800W
Net Weight	75kg	150kg
Power Supply	220V/50Hz 110V/60Hz	220V/50Hz 110V/60Hz
