

-45°C Blast Freezer

BFR 2400 series

-45°C Blast Freezer BFR 2400 series

-45°C Blast Freezer BFR 2400 series is designed for quick freezing of foodstuffs or fresh produce and store them. This fast freezing prevents ice formation during decrease of temperature. These freezers are used to bring down the temperature of the products rapidly and freezing them quickly.

Features

- ◆ Equipped with water-proof LCD screen and R404A is the refrigerant which is environmental friendly
- ◆ Provided with Aspera, Tecumseh or Bitzer compressor and Danfoss expansion valve which are durable in use
- ◆ Auto defrost system
- ◆ The material is made up of AISI 304 Stainless steel food grade which is heat proof and corrosion proof
- ◆ It is equipped with stainless steel door handle, adjustable layers and movable wheels for convenient to use

Application

Used for cooling food quickly and for prevention of surface freezing and also preserve the nutritional values of food items. Mostly used in frozen food industries like iced cream, pre-prepared meals and vegetables or fish or meat.

-45°C Blast Freezer BFR 2400 series

Specifications:

Model No.	BFR 2400	BFR 2401
Capacity	140L	220L
Temperature Range	+30°C to -45°C	+30°C to -45°C
No. of Layers	4	6
No. of Plates	8	18
Inner Dimensions	420*420*770 mm	560*400*930 mm
Outer Dimensions	600*850*1400 mm	700*1000*1750 mm
Power	1.5W	3.2W
Weight	175kg	255kg
Power Supply	220V, 50/60Hz	380V, 50/60Hz

Model No.	BFR 2402	BFR 2403
Capacity	610L	830L
Temperature Range	+30°C to -45°C	+30°C to -45°C
No. of Layers	10	15
No. of Plates	30	Custom
Inner Dimensions	1320*430*1080 mm	620*780*1720 mm
Outer Dimensions	1440*1000*1870 mm	1300*1280*1870 mm
Power	4.4W	4.5W
Weight	490kg	505kg
Power Supply	380V, 50/60Hz	380V, 50/60Hz
